

TEAM AS A SERVICE

According to the 2019 ISACA Report, 69% of cyber professionals say their teams are understaffed.

Despite budget constraints, skill gaps and time to hire a qualified team, your organization requires you to execute on key initiatives in addition to maintaining day to day operations.

Bird Rock Systems specializes in building high performance teams and applies agile methodologies such as SCRUM with the purpose of getting projects done. We assemble a team that can scale up and down with varied skill sets, without losing time in the long hiring process, onboarding and offboarding.

[Optimize your team effectiveness with Team as a Service.](#)

Key Benefits:

- Flexible service designed to keep IT projects moving forward
- Projects are completed faster
- Dedicated team that knows the environment and business
- Experienced resources for the given project
- Limits the need to go through the process of hiring
- Reduce services scoping and procurement process for new projects
- Cost savings on IT personnel
- Utilize a world class team
- Documentation that enables effective communication between IT, executives, and other departments

AT YOUR SERVICE

EVERY CUSTOMER IS ASSIGNED A DEDICATED TEAM THAT IS COMPOSED OF:

Program Advisor (vCISO, vCIO, vCCO)
Program Manager
Architect
Systems Engineer(s)

SECURITY TEAM AS A SERVICE

Objective: To deliver continued security improvements and management. Collaborating with your CISO, our vCISO (virtual Chief Information Security Officer) will assist in strategic direction to help you achieve your cyber security and compliance goals. We determine and prioritize security initiatives to reduce risk in a rapid and cost-effective manner.

Scope:

- Security Strategy
- Physical Security
- Application & Cloud
- Network Security
- Access Control
- Policy, Procedure & Compliance
- Security Management
- Sensitive Data

IT TEAM AS A SERVICE

Objective: To augment your IT team in delivering reliable, high performing and scalable IT services that support business priorities. Your CIO or our vCIO (virtual Chief Information Officer) teams up to formulate a technology roadmap which allows our team to execute on your strategic initiatives.

Scope:

- Strategy
- Infrastructure
- Network
- Wireless
- Storage
- Server
- Integration
- Support

CLOUD TEAM AS A SERVICE

Objective: To help you map existing business goals with cloud strategies. This enables customers to transform and optimize business processes and resource utilization to gain a competitive advantage. Our vCCO (virtual Chief Cloud Officer) works with your CCO to map business workloads to cloud use cases and advises on cloud economics while our expert Cloud Team designs and integrates cloud workloads to your business.

Scope:

- Cloud Strategy
- Amazon Web Services
- Microsoft Azure
- Google Cloud

The heart of the service is to augment and optimize your investment. Your investment includes your team and technology. We understand that your environment is unique and therefore requires a customizable solution. We are eager to serve you!
